MEMORANDUM FOR: Special Assistant to the Director  
for Planning and Development

SUBJECT: Comments on Enclosures

1. As directed, OSI and ATIC were consulted concerning the operational life span of the U-2. The conclusions reached by operations Personnel as a result of the meetings are as indicated in ref A.

2. Reference B is a bi-product of the ATIC meeting. They have performed considerable work in this area and were very positive in their recommendations concerning the value of camouflage paint. (Mission 6017 - [REDACTED] was visually sighted by three different fighter groups.) Consideration should be given the utilization of black paint for camouflage. 25X1A

3. Ref C forwarded for information indicating most recent developments
- a. Hold off on F-104 zoom-climb until over-pressure, structure and engine limitations are analyzed.
  - b. Proceed highest priority with Granger tests.
